REMARKS

**DO NOT CIRCULATE**

1. On 16 October 1952, there was no air activity at Puetnitz airfield because of bad weather. Seven MiG-15s, [redacted] were parked at the northeastern end of the runway. The air intakes were covered with red lids fitted with flags.<sup>1</sup>

2. The inner low frequency beacon stood in the extension of the runway, just west of the small river which extended west of the Deckowshof-Damgarten road and railroad line. Another radio installation was observed 300 meters southeast of the Steinort forester's house. A small wooden shed was located between two masts which were about 20 meters apart. The larger mast which was braced by two guy wires had a grid antenna on top. The other mast was not braced and fitted with a frame antenna. It was not observed that the antennas had lead-ins.

3. An AA gun emplacement with seven banks was observed in the road fork northeast of the northeasternmost. The guns probably were of 37-mm caliber.

4. German workers at the field used to produce their German identity cards and say "Kholodnyelnik" when passing the guard at the entrance to the field. As they were well known to the guards, they were allowed to go alone to the supply unit, where they reported to supply officer Tserodin (fnu) [redacted]

[illegible]

1. ☐ Comment. Fuetnitz airfield is occupied by two fighter regiments and a fighter division headquarters. ☐

SECRET

25X1

- 2 -

- 25X1 2. [ ] Comment. The inner low frequency landing beacon is known. The radio installation southeast of the Steinert forester's house probably is a radar station. For sketch of installation, see Annex 1. For location of installation see Annex 2.
- 25X1 3. [ ] Comment. For location of AA gun emplacements, see Annex 2. Additional AA gun emplacements were previously observed near the Luethnitz estate.
- 25X1 4. [ ] Comment. Myevilyayev, who is reported for the first time, probably is senior lieutenant. It is believed that Forkhominko and Myevilyayev are the officers who are responsible for maintenance work on the installations at the field.
